- 1 – Apple

- 2 – Berry - all Berries
- 3 – Grape - all varieties
- 4 – Sugar Free - Reduced
- 5 – Article not covered above

Division 2305 - Preserves, Jams, Marmalades

Basis for Judging:

JAMS are usually made of one fruit crushed or jammed together into a mass of an even soft consistency thick enough to spread easily or be divided into portions. Juices are not separated from fruits and are of a jelly consistency. MARMALADES are soft fruit jellies containing small pieces of fruit or peel evenly suspended in the transparent jelly. PRESERVES are made usually of one fruit, but more than one may be used. The fruit, whole or in large pieces, is cooked in a syrup until clear and transparent, tender, firm, crisp, and well plumped. The shape of fruit is retained. Juice is of a thick, syrupy consistency completely surrounding the fruit. In general, 3/4 lb. sugar to 1 lb. of fruit used.

CONSERVES are a jam-like product of two or more fruits. They often contain nuts or raisins. They are made of very small whole, or pieces of fruit cooked or jammed into a mixture of an even, soft consistency. The liquid is jelly-like in character. The name and flavor of the conserve is that of the dominant fruit.

BUTTERS are smooth, even, finely grained mixtures of medium soft consistency without seeds or small pieces of fruit and with no evidence of juice as a separate liquid. Butters are usually about 1/2 to 2/3 lb. sugar to 1 lb. of fruit.

Department 27: Open Sewing

Rules and Regulations:

All Articles Must Be Cleaned and Pressed.

Basis for Judging:

General Appearance – Pleasing combination of colors, trim suitable to fabric. Fabric - Suitable for type of garment and pattern. Workmanship - Correct stitch length and tension for fabric weight, no loose ends. Seams - Even 5/8” or as pattern directs, clipped on curves, finished according to fabric, i.e., zigzag, overlock, overcast or turned and stitched, well pressed. Darts - should not pucker at points, should be pressed according to guide sheet. Thread and Seam Binding - should be comparable to fabric and finished edge, no iron-on hem facing. Buttons and Closures - should complement garment, should be attached by thread shank method unless button has manufactured shank. Hooks and Eyes, Snaps - Size and weight should be appropriate for fabric, should not show through on right side, and should be placed so that garment lays flat, neckline zipper should have hook and eye at top if zipper is not even with neckline. Zippers - stitching should be evenly spaced for the appropriate zipper application. Pleats and Tucks - Evenly spaced and properly pressed, top stitched if required by pattern instructions.
